CAREER OBJECTIVES

Motivated and detail-oriented IT graduate seeking an entry-level position where I can apply my technical skills, problem-solving abilities, and eagerness to learn while contributing to the organization's success

CERTIFICATION

Full Stack Java Development(2025)

Institute Name :- Skillio

Successfully completed Java Full Stack Development Training covering Java, JDBC, Servlets, JSP, Spring Boot, Hibernate, REST APIs, MySQL, HTML, CSS, JavaScript, and Git.

EDUCATION

MCA (Pursuing 2026)

Institute of Industrial and Computer Management and Research, Nigdi , Pune

BSc Computer Science (2025)

Karmveer Aabasabeh Alias N.M Sonwane College, Satana

Percentage 70.11%

HSC (2022)

Karmveer Aabasabeh Alias N.M Sonwane College, Satana

Percentage 60.50%

SSC (2020)

Jijamata Girl's Highschool, Satana

Percentage 92.40%

SKILLS

Languages:- MySQL, Java, HTML, CSS, React.js, JavaScript

Framework and Technologies:- Spring Boot, Spring MVC, Hibernate, REST API, JSP

Core Concepts:- OOPs, Collection Framework, Exception Handling, Multithreading, CRUD Operations

Tools: Git, GitHub, Postman, Eclipse, VS Code, STS (Spring Tool Suite), MySQL

PROJECTS

Employee Leave Management System

- Developed a web-based Employee Leave Management System to simplify and automate the employee leave application process.
Implemented modules for employee registration, login and profile management.
- Developed functionality for employees to apply for leave and check leave status.
- Implemented an admin module to review, approve or reject employee leave requests.
- Used PHP and MySQL for backend development and database management.
- Implemented CRUD operations for managing employee and leave-related records.
- Designed a user-friendly interface using HTML, CSS and JavaScript.

Pet Rescue System

- Developed a web-based Pet Rescue Report System to help users report and manage cases of abandoned or injured pets.
 - Implemented user registration, login and user management functionalities.
 - Developed a pet rescue reporting module to record rescue location, description and rescue details.
 - Implemented pet adoption functionality to manage adoption requests and pet-related information.
 - Developed the backend using Java and integrated the application with a database for storing and managing records.
 - Implemented CRUD operations for users, rescue reports and adoption records.
 - Designed a simple and user-friendly interface for efficient management of pet rescue and adoption activities.
-

ACHIEVEMENT

- Solved 50+ coding problems and a 3-Star Java on **Hacker Rank**
- Built academic projects using Java, Spring Boot, and MySQL technologies .
- Gained Hands-on experience with backend development, database connectivity, and REST API integration.
- Works on real-time project modules using Spring Boot, Hibernate, JSP, and MySQL
